Subject Index

Acid maltase (α-1,4-glucosidase) deficiency, adult form (Karpati et al), 276
ACTH and neuromuscular transmission, electrophysiological in vitro investigation of effects of corticotropin and an ACTH fragment on neuromuscular transmission (Birnberger et al), 270
Adenine arabinoside in treatment of progressive multifocal leukoencephalopathy, use of virus-containing cells in urine to assess response to therapy (Rand et al), 458
Agnosia
  prosopagnosia (Cohn et al), BRIEF COMMUNICATION, 177
Alzheimer disease
  Alzheimer neurofibrillary change in subacute sclerosing panencephalitis (Mandybur et al), CASE REPORT, 103
  rapidly evolving EEG changes in a case of Alzheimer disease (Ehle and Johnson), CASE REPORT, 593
American Neurological Association
  abstracts, annual meeting, 495
  message from the editor, 1
  program, annual meeting, 492
Amyloid angiopathy, cerebral hemorrhage in (Jellinger), CORRESPONDENCE, 604
Amyotrophic lateral sclerosis
  pregnancy and amyotrophic lateral sclerosis (Levine and Michels), NOTE, 408
  viruslike particles in amyotrophic lateral sclerosis (Peña), CASE REPORT, 290
Aneurysms
  fibromuscular dysplasia, multiple "spontaneous" dissecting aneurysms of the major cervical arteries (Ringel et al), CASE REPORT, 301
  long-term prognosis in untreated cerebral aneurysms, incidence of late hemorrhage in cerebral aneurysm (Winn et al), 358
  survival with permanent midbrain dysfunction after surgical treatment of traumatic subdural hematoma, clinical picture of a Duret hemorrhage? (Caplan and Zervas), CASE REPORT, 587
Anoxia
  cerebral metabolism in newborn dogs during reversible asphyxia (Vannucci and Duffy), 528
Antigens
  encephalopathy associated with cryoprecipitable Australia antigen (Rosenberg et al), CASE REPORT, 298
Ataxia
  ataxia and nystagmus induced by injection of local anesthetics in the neck (de Jong et al), 240
Autonomic nervous system diseases
  postganglionic cholinergic dysautonomia (Harik et al), CASE REPORT, 393

Behavioral abnormalities
  methylphenidate therapy for inattentiveness in selected school children (Duchowny and Leviton), CORRESPONDENCE, 307
  propranolol for control of belligerent behavior following acute brain damage (Elliott), BRIEF COMMUNICATION, 489
Blood-brain barrier
  large apparent work capability of blood-brain barrier, study of mitochondrial content of capillary endothelial cells in brain and other tissues of the rat (Oldendorf et al), 409
Bone diseases
  fibromuscular dysplasia, multiple "spontaneous" dissecting aneurysms of the major cervical arteries (Ringel et al), CASE REPORT, 301
  neurogenic muscle atrophy and osteomalacia in adult Fanconi syndrome (Mallette and Patten), 131
  spinal cord involvement by C4-C5 vertebral subluxation in rheumatoid arthritis (Hughes), 575
Book reviews
  books received, 208
  Brain Work: The Coupling of Function, Metabolism and Blood Flow in the Brain, by Ingvar and Lassen (Yatsu), 110
  Handbook of Clinical Neurology, by Vinken and Bruyn (Plum), 110
  Introduction to Basic Neurology, by Patton et al (Plum), 208
Botulism, electrophysiological studies (Oh), CASE REPORT, 481
Brain. *See also* Brain tumors; Electrical activity
  blood flow
    regional cerebral blood flow pattern in subcortical propagation of focal seizures in newborn monkeys (Hosokawa et al), 225
  blood vessels
    isolated brain capillaries, model for study of lead encephalopathy (Goldstein et al), 235
  damage
    cerebral necrosis following radiotherapy of extracranial neoplasms (Rottenberg et al), 339
    prolonged focal epilepsy and hypoxemia as a cause of focal brain damage (Knopman et al), CASE REPORT, 195
    propranolol for control of belligerent behavior following acute brain damage (Elliott), BRIEF COMMUNICATION, 489
    survival with permanent midbrain dysfunction after surgical treatment of traumatic subdural hematoma, clinical picture of a Duret hemorrhage? (Caplan and Zervas), CASE REPORT, 587
    traumatic locked-in syndrome (Britt et al), CASE REPORT, 590
  development
    ependymal changes in human fetal brain (Dooling et al), 535
    gyral development of human brain (Chi et al), 86
  ependyma
    ependymal changes in human fetal brain (Dooling et al), 535
  infarction
    acute failure of automatic respirations secondary to unilateral brainstem infarct (Levin and Margolis), CASE REPORT, 583
    cerebral infarction complicating subclavian vein catheterization (Hurwitz and Posner), 253

January issue, pp 1–110; February issue, pp 111–208; March issue, pp 209–308; April issue, pp 309–408; May issue, pp 409–510; June issue, pp 511–604.

Brain *(continued)*
lesions
lid abnormalities secondary to cerebral hemisphere lesions (Nutt), 149
metabolism
cerebral metabolism in newborn dogs during reversible asphyxia (Vannucci and Duffy), 528
mitochondria
large apparent work capability of blood-brain barrier, study of mitochondrial content of capillary endothelial cells in brain and other tissues of the rat (Oldendorf et al), 409
mitochondrial metabolism following bilateral cerebral ischemia in the gerbil (Ginsberg et al), 519
Brain tumors
false diagnosis of orbital apex tumor by CAT scan in thyroid eye disease (Susac et al), CASE REPORT, 397
immunological and cytogenetic investigation of tuberous sclerosis (Roos et al), BRIEF COMMUNICATION, 192
lead poisoning and brain tumors in children (Schreier et al), BRIEF COMMUNICATION, 599
paroxysmal pains with parietal falx meningioma (Barraquer-Bordas et al), NOTE, 601

Cerebrospinal fluid
cerebrospinal fluid norepinephrine reductions in man after degeneration and electrical stimulation of the caudate nucleus (Wood et al), 94
normal cerebrospinal fluid protein, increased intracranial pressure, and Guillain-Barré syndrome (Sullivan and Reeves), NOTE, 108
Choline
Huntington's disease, clinical and chemical effects of choline administration (Growdon et al), 418
Clonazepam and branchial myoclonus (Gledhill and Wiles), CORRESPONDENCE, 306
Coma
alpha-pattern coma (Grindal et al), 371
fits, faints, and the IUD (Faden et al), CORRESPONDENCE, 305
Convulsions
cerebral-cerebellar paroxysmal activity in experimental focal seizures (Caveness et al), BRIEF COMMUNICATION, 287
febrile convulsions caused by meningitis in young children (Ratcliffe and Wolf), BRIEF COMMUNICATION, 285
fits, faints, and the IUD (Faden et al), CORRESPONDENCE, 305
regional cerebral blood flow pattern in subcortical propagation of focal seizures in newborn monkeys (Hosokawa et al), 225
Corticosteroids
complications of high-dose corticosteroid therapy in neurosurgical patients (Marshall et al), BRIEF COMMUNICATION, 201
CTT scanning
false diagnosis of orbital apex tumor by CAT scan in thyroid eye disease (Susac et al), CASE REPORT, 397

Dementia
abnormalities in growth of skin fibroblasts of patients with Huntington's disease (Barkley et al), 426
Alzheimer neurofibrillary change in subacute sclerosing panencephalitis (Mandybur et al), CASE REPORT, 103
comparison of ribosomal subunit proteins from normal human and Huntington's disease skin fibroblasts (Prashad and Rosenberg), BRIEF COMMUNICATION, 475
Huntington's disease, clinical and chemical effects of choline administration (Growdon et al), 418
Huntington's disease, growth of fibroblast cultures in lipid-deficient medium (Menkes and Hanoch), 423
rapidly evolving EEG changes in a case of Alzheimer disease (Ehle and Johnson), CASE REPORT, 593
Demyelinative diseases
adenine arabinoside in treatment of progressive multifocal leukoencephalopathy, use of virus-containing cells in urine to assess response to therapy (Rand et al), 458
chronic relapsing experimental allergic encephalomyelitis, experimental model of multiple sclerosis (Wiśniewski and Keith), 144
encephalopathy associated with cryoprecipitable Australia antigen (Rosenberg et al), CASE REPORT, 298
glucocorticoid preservation of motor nerve function during early degeneration (Hall et al), 263
isolated brain capillaries, model for study of lead encephalopathy (Goldstein et al), 235
morphological characteristics of central demyelination and remyelination, single-fiber study (Gledhill and McDonald), 552
remyelination after transient experimental compression of spinal cord (Harrison and McDonald), 542
visual evoked potentials and quantitative perimetry in multiple sclerosis (Ellenberger and Ziegler), 561
Diphenylhydantoin
depression of synaptic transmission by diphenylhydantoin (Yaari et al), 334
diphenylhydantoin effects on thyroid function tests (Caplan et al), CORRESPONDENCE, 603
Drugs. *See also specific drug*
ataxia and nystagmus induced by injection of local anesthetics in the neck (de Jong et al), 240
serotonin metabolism in human epilepsy, influence of anticonvulsant drugs (Chadwick et al), 218
Dysplasia
fibromuscular dysplasia, multiple "spontaneous" dissecting aneurysms of the major cervical arteries (Ringel et al), CASE REPORT, 301

Editorials
environmental hazards and neurological disease (Rall and Tower), 209
message from the editor (Plum), 1
Electrical activity
activation of periodic complexes of subacute sclerosing panencephalitis by sleep (Westmoreland et al), BRIEF COMMUNICATION, 185
animal model for production of intracranial pressure plateau waves (Wald and Hochwald), BRIEF COMMUNICATION, 486
cerebral-cerebellar paroxysmal activity in experimental focal seizures (Caveness et al), BRIEF COMMUNICATION, 287
EEG spike, signal of information transmission? (Stevens), HYPOTHESIS, 309

far-field somatosensory evoked potentials in the cat, correlation with depth recording (Iragui-Madoz and Wiederholt), 569
importance of Holter monitoring in patients with periodic cerebral symptoms (Jonas et al), 470
rapidly evolving EEG changes in a case of Alzheimer disease (Ehle and Johnson), CASE REPORT, 593
visual evoked potentials in Leber's hereditary optic neuropathy (Dorfman et al), 565
visual evoked potentials and quantitative perimetry in multiple sclerosis (Ellenberger and Ziegler), 561
Electrophysiological studies
botulism, electrophysiological studies (Oh), CASE REPORT, 481
far-field somatosensory evoked potentials in the cat, correlation with depth recording (Iragui-Madoz and Wiederholt), 569
visual evoked potentials in Leber's hereditary optic neuropathy (Dorfman et al), 565
visual evoked potentials and quantitative perimetry in multiple sclerosis (Ellenberger and Ziegler), 561
Encephalitis
activation of periodic complexes of subacute sclerosing panencephalitis by sleep (Westmoreland et al), BRIEF COMMUNICATION, 185
Alzheimer neurofibrillary change in subacute sclerosing panencephalitis (Mandybur et al), CASE REPORT, 103
effect of isoprinosine in subacute sclerosing panencephalitis (SSPE) (Streletz and Cracco), CASE REPORT, 183
serological diagnosis of St Louis encephalitis in a patient with syndrome of opsoclonia, body tremulousness, and benign encephalitis (Estrin), CASE REPORT, 596
subacute measles encephalitis complicating Hodgkin's disease in an adult (Wolinsky et al), 452
subacute sclerosing panencephalitis in the Middle East (Haddad et al), 211
Encephalomyelitis
chronic relapsing experimental allergic encephalomyelitis, experimental model of multiple sclerosis (Wiśniewski and Keith), 144
Encephalopathy
encephalopathy associated with cryoprecipitable Australia antigen (Rosenberg et al), CASE REPORT, 298
isolated brain capillaries, model for study of lead encephalopathy (Goldstein et al), 235
Epilepsy
efficacy of intravenous phenytoin in treatment of status epilepticus, kinetics of central nervous system penetration (Wilder et al), 511
penicillin-induced epileptiform activity in hippocampal in vitro preparation (Schwartzkroin and Prince), 463
prolonged focal epilepsy and hypoxemia as a cause of focal brain damage (Knopman et al), CASE REPORT, 195
serotonin metabolism in human epilepsy, influence of anticonvulsant drugs (Chadwick et al), 218
Ethanol and spinal presynaptic inhibition in man (Ashby et al), BRIEF COMMUNICATION, 478

Fanconi syndrome
neurogenic muscle atrophy and osteomalacia in adult Fanconi syndrome (Mallette and Patten), 131
Fibroblasts
abnormalities in growth of skin fibroblasts of patients with Huntington's disease (Barkley et al), 426
comparison of ribosomal subunit proteins from normal human and Huntington's disease skin fibroblasts (Prashad and Rosenberg), BRIEF COMMUNICATION, 475
Huntington's disease, growth of fibroblast cultures in lipid-deficient medium (Menkes and Hanoch), 423

Glucocorticoids
glucocorticoid preservation of motor nerve function during early degeneration (Hall et al), 263
Guillain-Barré syndrome
Guillain-Barré syndrome and Hodgkin's disease (Lisak et al), 72
normal cerebrospinal fluid protein, increased intracranial pressure, and Guillain-Barré syndrome (Sullivan and Reeves), NOTE, 108
polyradiculoneuropathy accompanying procainamide-induced lupus erythematosus, evidence for drug-induced enhanced sensitization to peripheral nerve myelin (Sahenk et al), 378

Hemorrhage
cerebral hemorrhage in amyloid angiopathy (Jellinger), CORRESPONDENCE, 604
hypertensive putaminal hemorrhage (Hier et al), 152
Hodgkin's disease
Guillain-Barré syndrome and Hodgkin's disease (Lisak et al), 72
subacute measles encephalitis complicating Hodgkin's disease in an adult (Wolinsky et al), 452
Huntington's disease
abnormalities in growth of skin fibroblasts of patients with Huntington's disease (Barkley et al), 426
comparison of ribosomal subunit proteins from normal human and Huntington's disease skin fibroblasts (Prashad and Rosenberg), BRIEF COMMUNICATION, 475
Huntington's disease, clinical and chemical effects of choline administration (Growdon et al), 418
Huntington's disease, growth of fibroblast cultures in lipid-deficient medium (Menkes and Hanoch), 423
Hypotheses
EEG spike, signal of information transmission? (Stevens), 309

Inflammatory diseases
cerebral vasculitis in coccidioidal meningitis (Kobayashi et al), CASE REPORT, 281
Intracranial pressure
animal model for production of intracranial pressure plateau waves (Wald and Hochwald), BRIEF COMMUNICATION, 486
hypertensive putaminal hemorrhage (Hier et al), 152
normal cerebrospinal fluid protein, increased intracranial pressure, and Guillain-Barré syndrome (Sullivan and Reeves), NOTE, 108
Ischemia
brain
mitochondrial metabolism following bilateral cerebral ischemia in the gerbil (Ginsberg et al), 519

Ischemia, brain *(continued)*
transient ischemic attacks with normal arteriograms, serious or benign prognosis? (Toole and Yuson), BRIEF COMMUNICATION, 100
muscle
double-step nerve stimulation test for myasthenic block, sensitization of postactivation exhaustion by ischemia (Desmedt and Borenstein), 55
Isoprinosine
effect of isoprinosine in subacute sclerosing panencephalitis (SSPE) (Streletz and Cracco), CASE REPORT, 183
Isotope cisternography, complications (Levine and Jayabalan), 172
IUD
fits, faints, and the IUD (Faden et al), CORRESPONDENCE, 305

Kearns-Sayre syndrome
lumping or splitting?, "ophthalmoplegia-plus" or Kearns-Sayre syndrome? (Berenberg et al), 37

Lead toxicity
isolated brain capillaries, model for study of lead encephalopathy (Goldstein et al), 235
lead poisoning and brain tumors in children (Schreier et al), BRIEF COMMUNICATION, 599
Leber's neuropathy
visual evoked potentials in Leber's hereditary optic neuropathy (Dorfman et al), 565
Lipid storage diseases
Niemann-Pick disease type D, lipid analyses and studies on sphingomyelinases (Rao and Spence), 385
Locked-in syndrome
traumatic locked-in syndrome (Britt et al), CASE REPORT, 590
Lupus erythematosus
polyradiculoneuropathy accompanying procainamide-induced lupus erythematosus, evidence for drug-induced enhanced sensitization to peripheral nerve myelin (Sahenk et al), 378
progressive multifocal leukoencephalopathy and cryptococcal meningitis with systemic lupus erythematosus and thymoma (Malas and Weiss), CASE REPORT, 188
Lymphocytes
thymic lymphocytes in myasthenia gravis (Birnbaum and Tsairis), 331

Meningitis
cerebral vasculitis in coccidioidal meningitis (Kobayashi et al), CASE REPORT, 281
febrile convulsions caused by meningitis in young children (Ratcliffe and Wolf), BRIEF COMMUNICATION, 285
progressive multifocal leukoencephalopathy and cryptococcal meningitis with systemic lupus erythematosus and thymoma (Malas and Weiss), CASE REPORT, 188
Metabolic disorders
adult form of acid maltase (α-1,4-glucosidase) deficiency (Karpati et al), 276
new myasthenic syndrome with end-plate acetylcholinesterase deficiency, small nerve terminals, and reduced acetylcholine release (Engel et al), 315
Niemann-Pick disease type D, lipid analyses and studies on sphingomyelinases (Rao and Spence), 385
nonketotic hyperglycinemia (Slager et al), CASE REPORT, 399
Whipple's disease with predominantly neuroophthalmic manifestations (Finelli et al), 247
Methylphenidate therapy for inattentiveness in selected school children (Duchowny and Leviton), CORRESPONDENCE, 307
Monitoring
importance of Holter monitoring in patients with periodic cerebral symptoms (Jonas et al), 470
Movement disorders
familial nonprogressive involuntary movements of childhood (Damasio et al), NOTE, 602
Multiple sclerosis
chronic relapsing experimental allergic encephalomyelitis, experimental model of multiple sclerosis (Wiśniewski and Keith), 144
visual evoked potentials and quantitative perimetry in multiple sclerosis (Ellenberger and Ziegler), 561
Muscle
activity
contractures, continuous muscle discharges, and tituation (Hanson et al), 120
sarcoplasm
two biochemical types of Duchenne dystrophy, sarcoplasmic reticulum membrane proteins (Samaha and Congedo), 125
Muscular atrophy
neurogenic muscle atrophy and osteomalacia in adult Fanconi syndrome (Mallette and Patten), 131
Muscular dystrophy
two biochemical types of Duchenne dystrophy, sarcoplasmic reticulum membrane proteins (Samaha and Congedo), 125
Myasthenia gravis
double-step nerve stimulation test for myasthenic block, sensitization of postactivation exhaustion by ischemia (Desmedt and Borenstein), 55
new myasthenic syndrome with end-plate acetylcholinesterase deficiency, small nerve terminals, and reduced acetylcholine release (Engel et al), 315
thymic lymphocytes in myasthenia gravis (Birnbaum and Tsairis), 331
Myoclonus
benign myoclonus of early infancy (Lombroso and Fejerman), 138
clonazepam and branchial myoclonus (Gledhill and Wiles), CORRESPONDENCE, 306
Myopathy
isolated myopathic involvement of diaphragmatic musculature in a neonate (Bergen et al), CASE REPORT, 403

Neck
fibromuscular dysplasia, multiple "spontaneous" dissecting aneurysms of the major cervical arteries (Ringel et al), CASE REPORT, 301
internuclear ophthalmoplegia following cervical manipulation (Zauel and Carlow), CORRESPONDENCE, 308
Neoplasms. *See also* Brain tumors
cerebral necrosis following radiotherapy of extracranial neoplasms (Rottenberg et al), 339

Guillain-Barré syndrome and Hodgkin's disease (Lisak et al), 72
subacute measles encephalitis complicating Hodgkin's disease in an adult (Wolinsky et al), 452
Nerve conduction studies
double-step nerve stimulation test for myasthenic block, sensitization of postactivation exhaustion by ischemia (Desmedt and Borenstein), 55
nerve conduction studies in natural rubella (Cuetter and John), BRIEF COMMUNICATION, 199
Nerves. *See also* Neuromuscular transmission
block
suppression of essential tremor by propranolol, correlation of effect with drug plasma levels and intensity of beta-adrenergic blockade (McAllister et al), 160
conduction disturbances
axonal transport disturbances in vincristine-induced peripheral neuropathy (Green et al), 255
depression of synaptic transmission by diphenylhydantoin (Yaari et al), 334
ethanol and spinal presynaptic inhibition in man (Ashby et al), BRIEF COMMUNICATION, 478
giant axonal neuropathy, childhood disorder of microfilaments (Koch et al), 438
function
glucocorticoid preservation of motor nerve function during early degeneration (Hall et al), 263
traumatic neuropathy
anterior interosseous nerve syndrome following cutdown catheterization (Finelli), 205
Neurochemistry—one hundred years, 1875–1975 (Tower), COLLECTIVE REVIEW, 2
Neuromuscular transmission
ACTH and neuromuscular transmission, electrophysiological in vitro investigation of effects of corticotropin and an ACTH fragment on neuromuscular transmission (Birnberger et al), 270
Neuropathy
axonal transport disturbances in vincristine-induced peripheral neuropathy (Green et al), 255
giant axonal neuropathy, childhood disorder of microfilaments (Koch et al), 438
Neurosurgery
complications of high-dose corticosteroid therapy in neurosurgical patients (Marshall et al), BRIEF COMMUNICATION, 201
Niemann-Pick disease
Niemann-Pick disease type D, lipid analyses and studies on sphingomyelinases (Rao and Spence), 385
Nystagmus
ataxia and nystagmus induced by injection of local anesthetics in the neck (de Jong et al), 240
suppression of vestibular nystagmus (Zee), NOTE, 207

Occlusive diseases
basilar artery occlusion in a 10-year-old boy (Ackerman et al), NOTE, 204
colonic pseudoobstruction in patients with stroke (Reynolds and Eliasson), NOTE, 305
Oculomotor function tests
suppression of vestibular nystagmus (Zee), NOTE, 207
Ophthalmoplegia
internuclear ophthalmoplegia following cervical manipulation (Zauel and Carlow), CORRESPONDENCE, 308
lumping or splitting?, "ophthalmoplegia-plus" or Kearns-Sayre syndrome? (Berenberg et al), 37

Pain
paroxysmal pains and parietal falx meningioma (Barraquer-Bordas et al), NOTE, 601
Paralysis
motor
traumatic locked-in syndrome (Britt et al), CASE REPORT, 590
oculomotor
internuclear ophthalmoplegia following cervical manipulation (Zauel and Carlow), CORRESPONDENCE, 308
lumping or splitting?, "ophthalmoplegia-plus" or Kearns-Sayre syndrome? (Berenberg et al), 37
Whipple's disease with predominantly neuroophthalmic manifestations (Finelli et al), 247
Parkinsonism
developments in pharmacology and therapeutics of parkinsonism (Calne), CURRENT REVIEW, 111
ocular dyskinesias in patients with Parkinson's disease treated with levodopa (Shimizu et al), 167
Penicillin-induced epileptiform activity in hippocampal in vitro preparation (Schwartzkroin and Prince), 463
Perimetry
visual evoked potentials and quantitative perimetry in multiple sclerosis (Ellenberger and Ziegler), 561
Peripheral nerve diseases
neuropathy
axonal transport disturbances in vincristine-induced peripheral neuropathy (Green et al), 255
giant axonal neuropathy, childhood disorder of microfilaments (Koch et al), 438
optic neuritis
visual evoked potentials in Leber's hereditary optic neuropathy (Dorfman et al), 565
polyneuritis
Guillain-Barré syndrome and Hodgkin's disease (Lisak et al), 72
normal cerebrospinal fluid protein, increased intracranial pressure, and Guillain-Barré syndrome (Sullivan and Reeves), NOTE, 108
polyradiculoneuropathy accompanying procainamide-induced lupus erythematosus, evidence for drug-induced enhanced sensitization to peripheral nerve myelin (Sahenk et al), 378
Phenytoin
efficacy of intravenous phenytoin in treatment of status epilepticus, kinetics of central nervous system penetration (Wilder et al), 511
Polymyositis
eosinophilic polymyositis (Layzer et al), 65
Procainamide
polyradiculoneuropathy accompanying procainamide-induced lupus erythematosus, evidence for drug-induced enhanced sensitization to peripheral nerve myelin (Sahenk et al), 378
Progressive multifocal leukoencephalopathy
adenine arabinoside in treatment of progressive multifocal leukoencephalopathy, use of virus-containing cells in urine to assess response to therapy (Rand et al), 458

Propranolol
propranolol for control of belligerent behavior following acute brain damage (Elliott), BRIEF COMMUNICATION, 489
suppression of essential tremor by propranolol, correlation of effect with drug plasma levels and intensity of beta-adrenergic blockade (McAllister et al), 160
Ptosis
lid abnormalities secondary to cerebral hemisphere lesions (Nutt), 149

Respiratory failure
acute failure of automatic respirations secondary to unilateral brainstem infarct (Levin and Margolis), CASE REPORT, 583
Reviews
developments in pharmacology and therapeutics of parkinsonism (Calne), 111
neurochemistry—one hundred years, 1875–1975 (Tower), 2
Reye's syndrome
ultrastructural lesions of muscle and immunofluorescent deposits in vessels in Reye's syndrome (Hanson and Urizar), 431
Rubella
nerve conduction studies in natural rubella (Cuetter and John), BRIEF COMMUNICATION, 199

Sclerosis. *See also* Encephalitis; Multiple sclerosis
immunological and cytogenetic investigation of tuberous sclerosis (Roos et al), BRIEF COMMUNICATION, 192
Serological tests
serological diagnosis of St Louis encephalitis in a patient with syndrome of opsoclonia, body tremulousness, and benign encephalitis (Estrin), CASE REPORT, 596
Serotonin metabolism in human epilepsy, influence of anticonvulsant drugs (Chadwick et al), 218
Spasticity
contractures, continuous muscle discharges, and titubation (Hanson et al), 120
Spinal cord
compression
remyelination after transient experimental compression of spinal cord (Harrison and McDonald), 542
spinal cord involvement by C4-C5 vertebral subluxation in rheumatoid arthritis (Hughes), 575
diseases
spinal cord sarcoidosis (Day and Sypert), 79

Therapy. *See also* Neurosurgery *and specific disease or drug*
complications
anterior interosseous nerve syndrome following cutdown catheterization (Finelli), NOTE, 205
cerebral infarction complicating subclavian vein catheterization (Hurwitz and Posner), 253
cerebral necrosis following radiotherapy of extracranial neoplasms (Rottenberg et al), 339
internuclear ophthalmoplegia following cervical manipulation (Zauel and Carlow), CORRESPONDENCE, 308
developments in pharmacology and therapeutics of parkinsonism (Calne), CURRENT REVIEW, 111
Thyroid function tests
diphenylhydantoin effects on thyroid function tests (Caplan et al), CORRESPONDENCE, 603
Tremor
suppression of essential tremor by propranolol, correlation of effect with drug plasma levels and intensity of beta-adrenergic blockade (McAllister et al), 160

Vincristine
axonal transport disturbances in vincristine-induced peripheral neuropathy (Green et al), 255

Whipple's disease
Whipple's disease with predominantly neuroophthalmic manifestations (Finelli et al), 247
